simple payback

Northwest Health System is a 222-bed acute care facility serving the greater Springdale community for over 50 years. The hospital was the first in Arkansas to offer minimally invasive robotic assisted surgery at the Northwest Robotic Surgery Institute. Northwest Medical Center - Springdale is also home to an accredited Chest Pain Center and is the site of the first open heart surgery in the state.

This hospital completed a lighting retrofit of 6,884 T12 and T8 linear fluorescent fixtures to LED fixtures.
