

Residential Customer Fact Sheet

What is the CoolSaver A/C Tune-Up Measure?

The CoolSaver A/C Tune-Up Measure provides SWEPCO Louisiana residential customers with high-performance tune-ups on your existing A/C and heat pump systems. During the tune-up, the contractor cleans the system equipment and corrects any inefficiencies. This improves performance and saves you energy.

What are the Benefits?

- Incentives in the form of an instant discount off your tune-up
- Lower monthly utility bills
- Can extend the life of your system
- Your home is more comfortable

What are the Incentives?

- Single-family home: \$150 per tune-up
- Multifamily home: \$75 per tune-up

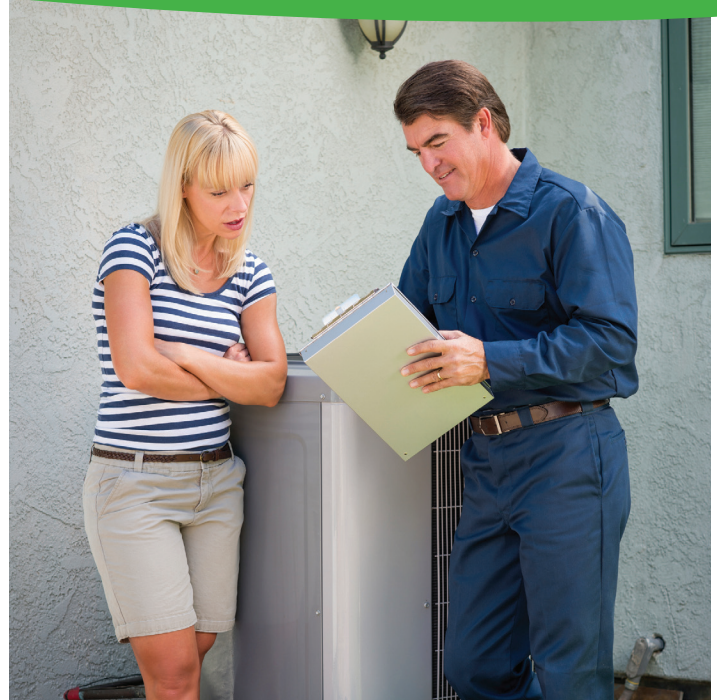

Who is Eligible for a CoolSaver Tune-Up?

All SWEPCO residential customers in Louisiana with a central A/C or heat pump system weighing less than five tons that is at least a year old.

How to Participate:

- 1** Contact your local SWEPCO Louisiana Energy Advisor at the phone number or email below to discuss any questions and set up a meeting with a qualified contractor.
- 2** A participating CoolSaver contractor will conduct an evaluation of your existing equipment to identify energy-saving opportunities.
- 3** The contractor will schedule a time to complete the CoolSaver Tune-Up of your system, which can include: checking filters; thoroughly cleaning condenser coils, evaporator coils and blowers; and adjusting the system refrigerant charge.
- 4** Incentives in the form of instant discounts are applied to your final bill.

Please contact your local SWEPCO Energy Advisor, Robert McCubbins, at 318-861-8430 or robert.mccubbins@clearesult.com for more information or to discuss any questions.
