

With SWEPCO, being energy smart is easy.

Reduce operating costs, improve learning environment and advance your school's sustainability commitment through energy efficiency improvements.

SWEPCO Louisiana's Commercial and Industrial Energy Efficiency Program provides incentives for qualifying energy-efficient improvements that reduce peak electric demand and save energy in commercial and industrial facilities. Incentives are based on verified electric energy and demand savings and are calculated using the incentive rate table. SWEPCO's Energy Advisors are available to help you identify projects, calculate financial impacts and provide application assistance.

Wide Support For Cost-Effective Upgrades

SWEPCO provides technical support, design assistance and incentives to help eligible K-12 schools identify and implement energy efficiency upgrades. Enjoy lower utility bills, an improved learning environment, reduced maintenance costs and more comfortable classrooms.

To make participation easy and cost-effective, our energy-saving solutions include incentives for common energy upgrades, as well as custom applications to fit your specific needs. We also perform comprehensive energy studies to help you understand exactly how your facility uses energy.

Technical Assistance With Every Step

A SWEPCO representative will provide no-cost technical support to help you achieve the highest savings possible with the quickest payback. This includes identifying energy-saving opportunities, project planning, selecting the right technology for your facility and calculating your savings.

Typical Projects Include

- Replacing overhead lighting with energy-efficient premium T8, T5 or LED systems.
- Adding sensors and controls to vending machines.
- Upgrading HVAC equipment.
- Installing premium efficiency motors.

- Upgrading gym lighting to T5HO and LED systems.
- Installing an energy management system that provides precision control over HVAC, lighting and other equipment.
- Installing computer power management software to help monitor and control energy consumption.

Customer Eligibility

Incentives are available to SWEPCO served commercial and industrial facilities with a demand over 100kW.

Submit an application and reserve your incentive at SWEPCOgridSMART.com
