

With SWEPCO, being energy smart is easy.

Reduce operating costs, boost customer satisfaction and advance your company's sustainability commitment through energy efficiency improvements.

SWEPCO Louisiana's Commercial and Industrial Energy Efficiency Program provides incentives for qualifying energy-efficient improvements that reduce peak electric demand and save energy in commercial and industrial facilities. Incentives are based on verified electric energy and demand savings and are calculated using the incentive rate table. SWEPCO's Energy Advisors are available to help you identify projects, calculate financial impacts and provide application assistance.

Lower Energy Bills, Better Dining Experience

The one thing you focus on more than your bottom line is customer satisfaction. With our technical expertise and incentives for energy upgrades, SWEPCO can help you with both. Improving the energy efficiency of your restaurant will cut energy costs and enhance the comfort and dining experience of your guests.

- Upgrading HVAC equipment.
- Installing heat pump water heaters.
- Upgrading exit signs to LED or electroluminescent signs.

Customer Eligibility

Incentives are available to SWEPCO served commercial and industrial facilities with a demand over 100kW.

Finding the Right Solution for Your Business

Our incentives cover many energy efficiency improvements, including HVAC, lighting, and refrigeration. Popular upgrades for restaurants include:

- Upgrading to ENERGY STAR® certified lighting in dining areas.
- Upgrading exterior lighting to LED or CFL lamps with enhanced controls and timers that adjust seasonally.
- Installing lighting occupancy sensors in walk-in refrigerators, restrooms and storage areas.
- Installing strip curtains on walk-in coolers.
- Upgrading to commercial ENERGY STAR appliances that use up to 45 percent less electricity.
